

Micfil Water Separator

WS 500 WS 800
WS 1000.WS 1500
WS 3000 WS 4000

PRODUCT DESCRIPTION:

The stainless steel micfil Water Separator WS is a simple one step unit that removes 99% of all free water found in diesel fuel. Even today's "clean" diesel fuel will easily become contaminated with Particle and condense water build up during transportation and storage. Unlike most other products on the market, the micfil Water Separator performs this function without the need for a replaceable or changeable filter element, cartridge. By removing water immediately before the fuel enters the engine's filter system, the Water Separator delivers cleaner fuel, (virtually eliminating filter clogging) and therefore greatly extending maintenance intervals. The water separator also acts as a filter for large contaminants. Particles are flushed out when the separated water is drained off. The water separator should be flushed from time to time.

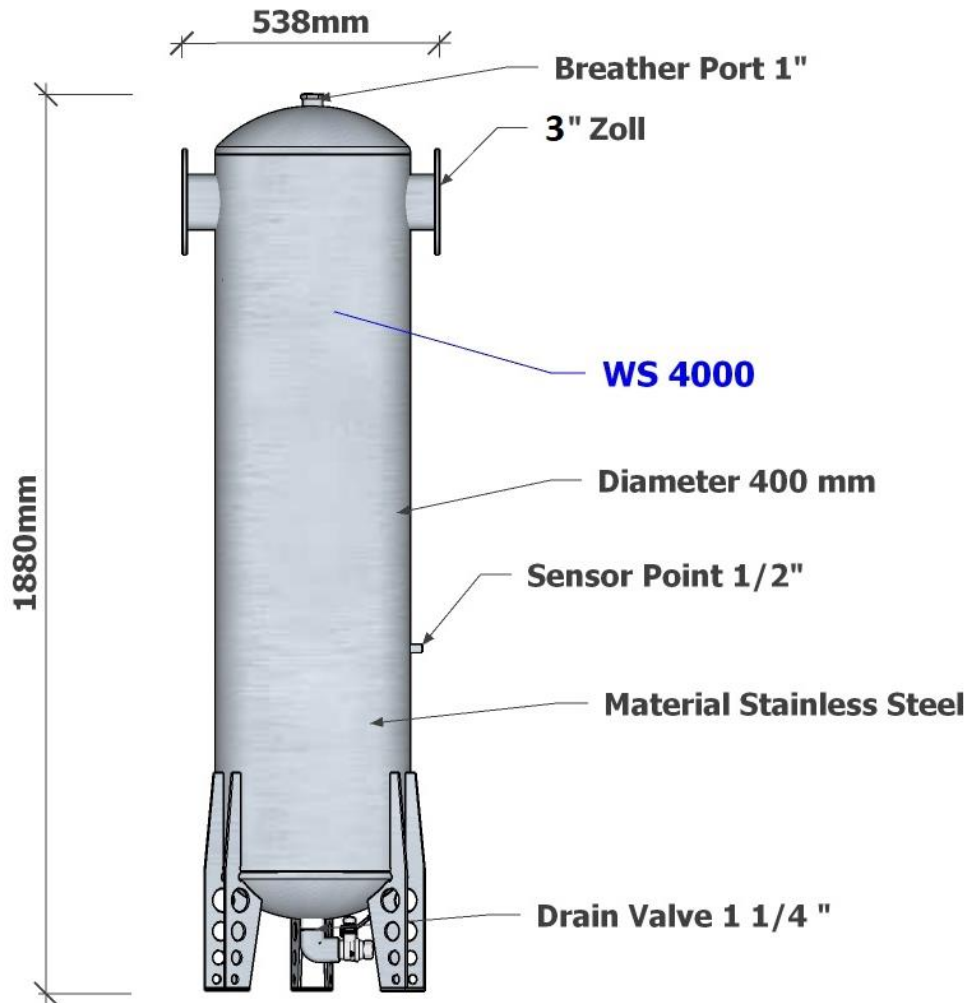

The micfil water separator is designed for heavy duty fuel industry such as; mining, navy, marine, construction agriculture, trucks, fuel storage and refineries.

PRODUCT FEATURES:

	WS 500	WS 800	WS 1000	WS 1500
Flow ltr/ min	10 ltr	57 ltr	150 ltr	250 ltr
Flow ltr/hr	600 ltr	3.420 ltr	9.000 ltr	15.000 ltr
Breather & Drain port	½"	1"	1"	1"
Inlet outlet port size	¾"	1"	2"	2"
Dimensions:				
Height	320 mm	405 mm	580 mm	1115 mm
Over all height with fittings	370 mm	485 mm	690 mm	1225 mm
Diameter	115 Ø	128 Ø	204 Ø	204 Ø
Weight	2.25 kg	4.8 kg	12 kg	18 kg
Material	Steel	Stainless Steel	Stainless Steel	Stainless Steel
Mounting	Wall mounted	Wall mounted	Wall mounted	Wall mounted

Stand alone unit

	WS 3000	WS 4000
Flow ltr/ min	667 ltr	1.466 ltr
Flow ltr/hr	40.000 ltr	88.000 ltr
Breather & Drain port	1"	1"
Inlet outlet port size	4"	4"
Dimensions:		
Height	1200 mm	1500 mm
Over all height with fittings	1500 mm	2050 mm
Diameter	406 Ø	406 Ø
Weight	48 kg	75 kg
Material	Stainless Steel	Stainless Steel
Mounting	Floor mounted	Floor mounted
